#### Investigation Concluded.

The Board of Police Commissioners a their meeting last night virtually concluded the investigation of the members of the police force. Continuous meet-ings have been held for nearly a month, during which time evidence had been scured concerning the working of the force, the inspection of the beats, the manner in which the business of the police department is conducted at the station house, the official co. duct of each member of the torce, &c. During the investigation witnesses who have from time to time appeared before the board have testified concerning delinquencies upon the part of certain members of the These relate to failure to roperly patrol thrir beats while on duty and violation of certain rules for the government of the force. Formal charges will be preferred against the of-ficers involved within the next few days.

As heretofore stated, the commis-sioners have conducted these investigations in executive session, doubtless for good reasons. When the trial of the accused policemen shall begin the names of such, together with the charges against them, will be made known and the defendants given every opportunity to rebut whatever is arged against them.

Should the commissioners deem the charges against any of the officers sufficently grave to warrant dismissal those sed can appeal from the of the board to the Corporation court.

### Increased Demand.

The Emerson Pump Company is still busily engaged in filling orders. A carload of their patent steam pumps was shipped to Welsh, Louisiana, today. The works, are gradually increasing the number of operatives. Pumps manufactured by the company are sent to all parts of the United States and Mexico, and the company will soon be compelled to enlarge their plant in this city in order to meet the demands upon it.

A boy named Edgar Ratcliffe while playing on top of a pile of lumber last night on Wilkes street, between Fairfax and Royal, fell into the tunnel, a distance of about twelve feet. Lumber has recently been piled against the wall of the tunnel, and boys of the neighborhood divert themselves by climbing upon the same.

### The Market.

There was an average display of country produce in the market this morning. Considerable green stuff, in the shape of cabbage cuttings, kale, spinsch, &c., was on the benches.
Spring onions, lettuce, radishes, rhu-barb, &c., were plentiful. There was a profuse display of flowers, lilacs pre-dominating, and the odor permeated the entire market court. Prices were about as last Saturday.
